

Programme

9.00 AM to 10.00 AM

Registration

SESSION – I : 10.00 AM to 11.00AM

Chairpersons: Dr. Sailen Goswami
Dr. Reeta Bhuyan

10.00 AM to 10.20 AM

Physiological and molecular aspects of human implantation

Dr. Ratnabali Chakraborty

10.20 AM to 10.40 AM

Roll of USG in assessing the endometrial receptivity --

Dr. Shyam Baruah

10.40 AM to 11.00 AM

Hysteroscopic evaluation of endometrium

Dr. Deepak Goenka.

TEA BREAK

11.00 am TO 11.40 AM

SESSION – II : 11.40 AM to 1.00PM

Chairpersons: Dr. Farida Begum
Dr. Ratna Talukdar

11.40 AM to 12.00 MD

Endometrial thickness & Infertility treatment outcome

Dr. M. L. Goenka.

12.00 MD to 12.20 PM

Clinical approaches to Increase uterine receptivity during human implantation

Dr. B. N. Chakraborty.

12.20 PM to 12.40 PM

Diagnostic modalities for genital tuberculosis

Dr. Nirupa Jodhani.

12.40 PM to 1.00 PM

Tuberculosis and Reproductive outcome

Dr. S. S. Choudhury

LUNCH

1.00 PM to 2.00PM

Invitation

We invite you to ISAR East Zone conference on Endometrium and Fertility to be held at Guwahati on 30th September, 2007.

Even after 30 years of assisted reproduction, there is virtual standstill in the incidence of clinical pregnancy rates, despite new application in ultrasound, ovarian stimulation, use of complex culture media. Low implantation rates have been the largest obstacle to the success of ART.

This conference will address the new insights into the factors regulating implantation. There will be focus on molecular biology, imaging & tuberculosis of endometrium and how it will influence the management protocol in an infertile couple.

The program brings together renowned faculties to present the latest development in the field.

On behalf of the organizing committee we welcome you to Guwahati for an interesting scientific program.

Dr. Kamini Rao.
President, ISAR

Dr. H. D. Pai
Secretary – ISAR

&

Executive Members

Organising Committee:

Dr. M. L. Goenka
Organising Chairperson

Dr. Deepak Goenka
East-Zone Co-ordinator, ISAR
