

## COVID RULES FOR ADMISSION AT IHR

If a patient has **NO history of being COVID POSITIVE** :

1. Negative RT-PCR test report will be considered valid for 14 days.
2. If a patient gets admitted within the first 7 days of test, no further check is required.
3. If a patient gets admitted from 8<sup>th</sup> to 14<sup>th</sup> day of test, RAT needs to be done. If RAT negative, patient can get admitted in a regular room.
4. Beyond 14 days, a fresh RT-PCR test will need to be done for admission.
5. In case of a night or Emergency admission, without any covid report, patient will be admitted to 109/112. RAT/RT-PCR will be done or next day morning and once results are available, accordingly patient can be shifted to a different room.

## COVID RULES: IF A PATIENT COMES WITH ANTIBODY TEST REPORT

1. According to ICMR rules and recent Govt protocols, antibody test is indicated for Sero-surveillance only.
2. Positive Antibody test shall be valid for 1 month only.
3. For the purpose of admission/IVF/Day care treatment at IHR:-
  - a. **Patient with history of being Antibody test POSITIVE:** Rapid Antigen Test (RAT) shall be deemed mandatory to check any active infection.
